

Build Your Data Engineering Team. Faster.

SPECIALIZED DATA ENGINEERING TALENT FOR MODERN DATA PLATFORMS

Cubic Technologies helps organizations add experienced Data Engineers for cloud modernization, scalable pipelines, analytics, governance, and AI-ready data. Our focus is simple: connect teams with specialized Data Engineering talent that can contribute quickly across modern data environments.

DATA ENGINEERING CAPABILITIES

Modern Data Pipelines ETL/ELT Batch & real-time processing Data integration API integration Kafka	Databricks & Lakehouse Databricks Apache Spark Delta Lake PySpark Lakehouse architecture
Cloud Data Platforms AWS Azure Snowflake Azure Data Factory AWS Glue	Engineering & Analytics Python SQL Data modeling Data lakes Warehouses Analytics enablement
DataOps & Reliability CI/CD Pipeline monitoring Observability Data quality Performance optimization	Governance & AI-Ready Data Governance Lineage Security Reliable data foundations for analytics and AI

DATABRICKS-CERTIFIED TALENT

Strong pipeline of Databricks-certified Data Engineers available across modern cloud and lakehouse environments - from Spark and PySpark development to data pipelines, Delta Lake, performance optimization, and platform modernization.

WHY CUBIC

Databricks-Certified Talent Access to a strong pipeline of Databricks-certified Data Engineering talent.	Vetted Data Engineers Professionals screened for relevant technical skills and project experience.
Faster Access to Talent Add specialized Data Engineering capacity without a long internal recruiting cycle.	Flexible Engagement Contract staffing / C2C, temp-to-hire, direct hire, and project-based teams.
Less Administrative Work Cubic handles employment, payroll, background checks, onboarding, and related compliance.	Scale With Demand Add one engineer or expand into a larger Data Engineering team as priorities change.

INDUSTRIES WE SUPPORT

Healthcare • Insurance • Financial Services • SaaS • Retail • Logistics • Government • Technology

Specialized Data Engineering Talent. Ready When You Need It.

Whether you need one experienced Data Engineer or additional capacity for a larger data initiative, Cubic can help strengthen your team and move critical data work forward.
